Pebbles After-School Club

Dear Parents and Carers,

Initial surveys carried out indicated that an afterschool facility was a service that parents required. However despite advertising this in school and via social media, take up has been low.

Miss Sainsbury and Mrs Sheehan are operating 'Pebbles' as a business independent of school. They are registered with Ofsted and as 'Pebbles' is a business they are liable to pay a business license to Suffolk County Council and rent for use of the school premises.

The intention of the service is quite simply to provide high quality after school care in a safe, stimulating and caring environment, where a range of exciting and engaging activities will be planned to meet the interests of those children attending. Prices of the sessions are highly competitive and sessions are flexible.

I hope that you will join the school in supporting Mrs Sheehan and Miss Sainsbury with this service, which will both support and benefit our school community.

Pebbles will now be operating from February 2018.

For more information or to register please contact the school office.
