Dear Parents/Carers

Threadworms

We are writing to inform you that a sibling of a child in KS1 has threadworms.

We would therefore ask you to keep an eye on your child/ren and, if you suspect anything, contact your GP or Practice Nurse for advice on how to deal with the problem. You will, of course, appreciate that the condition spreads very easily, especially amongst young children. You can also find out more information on the NHS Direct website, at www.nhsdirect.nhs.uk

We are making the children aware of the importance of washing their hands, especially before they have morning snacks and lunch.

Yours sincerely

K E BEATTIE
Headteacher
